

Re-extraction of Rare Metals from Flocs

凝集物から希少金属を再抽出

Dry the flocs those are separated from treated water. Then rare metals can be recycled after re-extracting them from among the dried flocs. Metals such as gold, silver, copper, aluminum, zinc, platinum etc and coal can be re-extracted by this process.

処理水と凝集物を固液分離し、凝集物を乾燥させます。乾燥した凝集物の中から、対象物だけを抽出してリサイクルすることができます。金・銀・銅・アルミニウム・亜鉛やプラチナ等の希少金属や石炭の再抽出が可能です。
