Uniform of Poly-Glu Boy India (December 2013)

Before 10 years, this small company of Osaka started its journey with the dream of 'Safe Drinking Water for all the World's People'. Now today this big dream has come true. Prime Minister Abe narrated in his speech made in the assembly of the United Nations: "It is necessary to ensure the independence and strength of the woman for sustaining peace and eradicating poverty from this world." Poly-Glu will take the challenge of implementing this thorough BOP Business with water.
