

## Status of Facilitation of Drinking Water in the Refugee Camps in Somalia, Project Executed by IOM under humanitarian assistances provided by the Japanese Government

Presently 40 simple water facilities of poly-glu are being operated for providing drinking water to the refugees and by the year 2014, this number will be increased to 53. 400 staffs are now working to facilitate drinking water to 700,000 people.

10,000kg of Poly-Glu water purifying powder arrived in Mogadishu.  
500,000 people can use this quantity for 100 days.

Refugee Camp in Dire Situation
