

POLY-GLU 代表の小田兼利は発明家であり、社会の変革家でもある。

I am Kanetoshi Oda and I am the chief of POLY-GLU. I am blessed to be an inventor as well as a social changer.

❶ POLY-GLU group 小田兼利が発明・世界中で利用されている代表的な技術。

非線形制御理論発表（月面着陸2年前）、符号式ドアロック（月面着陸の年）自動包装時の光電子に因る印刷模様合わせ、精度プラスマイナス 0.1 mm（月面着陸の年）

This representative technology developed by me is now being used all over the world.

Presentation of Nonlinear Control Theory (2 years before the moon landing), coded door locks (the year of the moon landing)

Printing patterns caused by optoelectronics during automatic packaging、Accuracy, plus or minus 0, 1 mm (the year of moon landing)

❷ 80歳を過ぎても研究活動、社会課題（BOP ビジネス・水中の微細プラスチック回収技術 実用化に努力している。

Even after my age of 80, I am still engaged in research activities and taking part in social issues (BOP business, and striving to commercialize technology for collecting fine plastics in water.)

❸ ガザ地区に20トンの浄水剤を寄付、1ヶ月間の飲料水、食料を住民に与え、イスラエル・米国の「非情ばかり喧伝されている」状況を変えたい。去年の10月7日のハマスの蛮行は、西側の人間なら忘れてはならない。両国は我々西側諸国の立場で大きい犠牲を払い、戦ってくれているのだ。この紛争を和平に導くため、イエメン政府の協力を得て、ラマダン明けから POLY-GLU は果敢に行動を起こす。

Donating 20 tons of water purification agent to the Gaza Strip, providing drinking water and food for one month to the residents.

I want to change the current situation that only the cruelty of Israel and the United States is being publicized.

Hamas's barbarism on October 7 last year should not be forgotten by anyone in the West.

Both countries are making great sacrifices and fighting on behalf of us in the West.

In order to bring peace to this conflict, POLY-GLU will take bold action after Ramadan with the cooperation of the Yemeni government.

④瀬戸内に限らず、世界中の河川、湖沼、港湾域の魚介類に、微細プラスチックが含まれている事が解った。POLY-GLU が開発した PG-M 凝集吸着剤は、汎用品で水中の無機・有機に関係なく、微細プラスチックまで、悉く水分を抜き地上に回収できる。

It was found that not only in the Seto Inland Sea, but also in rivers, lakes, and harbors around the world, fish and shellfish contain fine plastics. The PG-M flocculant developed by POLY-GLU is a general-purpose product that can be used to handle fine plastics, regardless of whether they are inorganic or organic in water. As the result, all water can be removed and collected on the ground.

⑤始めは独りだけの情熱が、周りを動かし、社会を動かし、遂には世界をも変える！

老人の域に達しながらも、この信念は戦場（現場で）倒れるまでやり抜く覚悟だ。

At first, one person's passion moves others, moves society, and finally changes the world!

Even though I am an old man, I am determined to continue this belief until I collapse on the job-site.
